**[CAUTION - EXTERNAL EMAIL]**

Hello,

I would like to see some additional public comment about this EIS study that is listed on the Sammamish Council website. I read a brief article about it in the July 2021 City Newsletter that was mailed to my house and it raised a lot of questions – what “tangible GMA compliant options” is the City Council looking for? What are the “potential significant adverse environment impacts” and what “proposed actions” is the Council looking at? In reading the Draft, it seems that the focus is only at car traffic, but why is that the only point to review?

Is there a place for me to look at the Public Comments received about this Draft? Can I see the Agencies comments as well?

Your newsletter states that the end of Public & Agency comment is tomorrow? Did you hold any public meetings (or on zoom due to Covid?) where we could hear differing viewpoints about this EIS Draft?

This would be so helpful to the residents.

Thank you,

Donna Woodall
